Summary

I am a Computer Science and Engineering (CSE) student with a strong passion for Artificial Intelligence (AI), machine learning, and data science. Skilled in Python.I have hands-on experience building AI systems. I excel in problem-solving, coding, and applying AI technologies to real-world challenges. Looking to contribute my skills in AI to impactful projects and innovations.

Education

Bachelor of Engineering in Computer Science Institute of Technology Baun, Uttarkashi
Expected Graduation: June 2027

Skills

- **Programming Languages:** Python, Java,
- **AI Tools & Libraries:** NumPy, Pandas, Matplotlib
- **Problem Solving:** Algorithm Design, Debugging, Optimisation
- **Data Handling:** Data Cleaning, Data Visualisation, CSV/JSON Processing

Projects

- **Career & Government Schemes Chatbot** — Designed an AI-powered chatbot using Python ,HTML, CSS, JS techniques to handle customer queries and automate responses. **Project Link:https://chatbot-ktu2.onrender.com**
- **Smart Gas Detection & Alert System—**A safety-focused embedded system that detects LPG/ methane gas leaks and immediately alerts users using a buzzer and LED indicator. Ideal for homes, hotels, gas-powered vehicle garages, and industries (**Programming Language:** C/C++ (Arduino IDE))

Achievements

- **Secured 3rd Position** in University Techno-Cultural Festival 2025 for innovative project presentation.

•**Selected for District Level Youth Parliament 2025** – Represented the district in discussions and decision-making on youth-related policies.
